

合作创新·共迎挑战

9月17日-20日 中国·北京

The Ministry of Science and Technology of the People's Republic of China, the Beijing Municipal People's Government, the Chinese Academy of Sciences, and the China Association for Science and Technology will hold the 2020 ZGC Forum in Beijing, China from September 17th to 20th.

Based on the theme of "Innovation through Cooperation and Meet Challenges Together", during the 2020 ZGC forum, the "2020 International Technology Trade Fair and Release on ZGC Forum" will be held. The forum will focus on the goal of "Converging Resources to Build the Platform", lots of excellent projects, technologies, capital, talents and other elements around the world will be gathered to create a "Fourth-Party Platform" of "Buying and Selling in Global Market" for the transformation and release of international scientific and technological achievements. A series of themed events will be held in order to build a normalized cooperation mechanism that promotes international technology commercialization, collaboration, development, openness, and innovation, including "100 Best Industrial Innovations for International Technology Transfer Release", "Zhongguancun New Technologies and Products Premiere", "Innovation and Cooperation Conferences of 10 Well-known Polytechnic University and Institutes of Technology & Key Technology Roadshows and Release" and so on so forth. The event will be held online and offline combined.

Among the agenda, the China-Nordic Smart City Forum is expected to hold at Exhibition Center on July 17th, 2020. In terms of building smart city and promoting sustainable development, China and Nordic countries have valuable experiences and enormous space for cooperation. We sincerely invite you to attend China-Nordic Smart City Forum to share your experiences. This forum is hosted by Organizing Committee of ZGC Forum the and organized by China Technology Exchange (CTEX) and Sino-Scandinavian Innovation & Entrepreneurship Center (SSIEC).
